GR0422 ACROBAT PE MSD 250W

ACROBAT Profile Evolution 250 is a professional standard moving yoke projector with a blend of features that will satisfy the needs of the most demanding of users.

The lightweight and powerful ACROBAT PE 250 has a high precision optical system that gives a remarkably powerful light output from the 2000 hours MSD 250W lamp (GY 9,5 base).

This high standard is matched by the quiet, fast and accurate 16 BIT resolution. Main features include: nine colours; four rotating and three fixed gobos (plus 10 additional metal ones); linear mechanical dimmer 0-100%; strobe (9 flash per second max); frost; 3-facet rotating prism; auto operation on pre set sequences, master/slave option.

All functions are controlled via six channels of DMX512 (eight in 16 bit mode). ACROBAT PE 250 offers simple maintenance and quick and easy lamp change. ACROBAT PE 250 is a true multi-purpose lighting tool with a wide variety of applications such as clubs, live performances, shopping centres, exhibitions and promotions.
