Vietnam - A better bridge for a better life

Located in North Vietnam, Haiphong is the third largest city of Vietnam counting over 2 million people. At the end of January, in a pleasant spring atmosphere, a new flyover at the intersection of Le Hong Phong and Nguyen Binh Khiem Street was inaugurated, after only 7 months from the beginning of its construction, with an official ceremony attended by all the most important local authorities. Meeting...

Australia - Brisbane's Green Wall blossoms with colour

Griven's authorized dealer for Australia, the ULA Group along with its Architectural Lighting team continue working closely with Cam Gunning from Vision and Sound Technology, this time on lighting up the Living Green Wall at King George Square in Brisbane. Brisbane City Council is strategically illuminating the main icons of the city as well as the 'hidden' beauties...

UK - GRIVEN sponsors the illumination of the Building Centre

Located in Central London, the Building Centre is an excellent venue for a variety of events. Its seminar rooms, boardroom and galleries lend themselves to conferences, meetings, product launches, drinks receptions and various exhibitions curated throughout the year, which cover a wide spectrum of topics within the built environment. Expert speakers and tutors provide talks, seminars and short courses...

MoLED: The ultimate challenge

MoLED GRAPHIC, RGB, MONO and DYNAMIC WHITE are thin profile, in-ground LED linear lighting solutions. Featuring an IP67 weather protection along with an extreme compact size and a light weight manageability, MoLED can be installed for recessed use in pedestrian areas, such as pathways, parks, gardens, and other public as well as private spaces. The monochromatic versions include, besides cold,...
