

CAPITAL 600 US

CAPITAL 600 US

DESCRIPTION

Standing out for its extraordinary performance capabilities, CAPITAL 600 US features an ultra-spot, long-shot beam of light capable of reaching remarkable distances with accurate beam angle definition. The full independent control of each LED bank allows absolute freedom in the creation of impressive matching or divergent dynamic effects on previously unreachable and remote spots with a surprising luminous output.

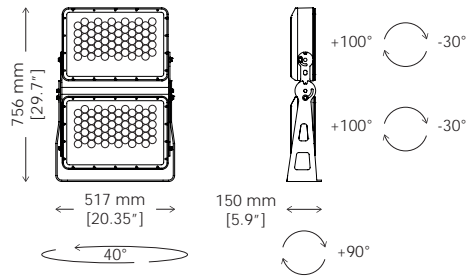

MAIN FEATURES

- Max. delivered lm output: 19422 lm / 62 lm/W
- Size: (HxWxD) 756x517x150 mm / 29.7x20.4x5.9"
- Control system: DMX-RDM, DALI DT8, DALI, on-board or remote wireless data
- Double cluster floodlight with full independent control of each LED bank fitted with ultra-spot, long-shot beam lenses
