

GEA

BY FRANCESCA STORARO

GEA

DESCRIPTION

Conceived and engineered according to the specifications of the renowned lighting designer Francesca Storaro, GEA is an innovative in-ground luminaire standing out for its unique shape, function, and performance. An unprecedented combination of three different optics delivers an even wall wash effect on both close-up and distant installations with a well-defined light projection reaching heights of up to 18 metres. An elegant frame allows for seamless, discreet integration into pavements in historic or modern urban environments.

MAIN FEATURES

- Max. delivered lm output: 3187 lm / 60 lm/W
- Size: (LxWxD) 410x345x152 mm / 16.1x13.6x6"
- Control system: DMX-RDM
- High performance in-ground uplighter featuring a combination of 3 different optics for an even wall wash effect, on both close-up and distant installations.
