

# KRAIT LE

KRAIT LE

## DESCRIPTION

KRAIT LE is a direct-view, flexible LED strip that can be controlled via DMX 512 protocol. By twisting from side to side, this multi-bending lighting solution can be seamlessly adapted to any curved or uneven surface to deliver bright and vibrant effects in both coloured and white light. Fitted with different optics visible through its clear diffuser, it features either 4 or 2 independent pixels per metre that allow eye-catching dynamic effects. With a maximum run of 5 meters, it is available in custom lengths as a convenient plug-and-play configuration to suit the most specific project requirements.

## MAIN FEATURES

- Max. delivered lm output: 2193 lm/m /124 lm/W/m
- Size: (WxD) 34x25 mm / 23x23 mm with selectable length up to 5000 mm
- Control system: DMX
- Direct view, multi-bending, independent-pixel LED strip fitted with a clear diffuser, that can be seamlessly adapted to any curved or uneven surface to provide bright colour- changing effects
